DESCRIPTION

The 't' designation in this variation on the 73 refers to its use as a table light. The table light has a 2290mm (90") long flexible cable with dial control for on/off/dimming. There is notch on the back of the pendant base and dial control for wall mounting.

The 73 is formed by blowing liquid glass into a folded and highly heat-resistant ceramic fabric vessel. The resulting shape has a formal and textural expression intuitively associated with fabric, which becomes permanent and rigid as it cools. Each 73 is completely unique in proportion, size and shape.
