Dondolina _Table lamp

Dondolina is a portable, rechargeable table lamp designed for those who love a pop, playful, and unconventional design. Its slender shape ends in a rounded base that allows the lamp to tilt and always return to an upright position — a dynamic effect that's both functional and fun. Made of painted die-cast aluminum with a polycarbonate diffuser, it's perfect for both indoor and outdoor use (IP65). The touch control on the top lets you turn the lamp on and off, adjust brightness through four levels, and choose the light color temperature (2200K, 2700K, 3000K). Equipped with a rechargeable and replaceable lithium battery, it provides up to 9 hours of light at full power, and fully recharges in 2–3 hours on the included contact charging base. The USB charger is sold separately. Available in five finishes (matte white, titanium, red, bronze, matte gold), Dondolina is a cordless lamp that brings together style, innovation, and motion to brighten up any space with personality.

LED | dimmable | IP65
