Suspension

Immédiateté de fonction, simplicité des lignes, matériaux durables, modularité en fonction des goûts personnels. S’inspirant des abat-jours des ateliers d'artistes du début du XXe siècle, JIM est un système de lampes à suspension arborant des formes distinctives et une composition polyvalente qui s’adapte à tous les styles d’habitation. La gamme chromatique souligne encore plus la polyvalence de JIM : les quatre différentes finitions disponibles pour les diffuseurs peuvent s’assortir, au choix, aux trois différentes tonalités du crochet de soutien.
