GHOST 1

Designed by Ronni Gol

DESCRIPTION

Less, perfected. GHOST distills light and form into a sharp, singular unity - round meeting rectangular in a composition of almost industrial minimalism that surprises precisely because it does not try to.
A classic expression, stripped of everything unnecessary, guided by an unwavering belief that restraint is its own sophistication. Superb optical performance lives quietly within a compact frame, available in configurations of one or two light sources, in two sizes.

GHOST does not announce itself. It simply illuminates; with clarity, confidence, and the enduring authority of less.

Equipped with Switch Tune technology, you can set the light to 2700K or 3000K during installation.
