Poldina Classic L Desk _Table lamp

Poldina Classic L Desk is a cordless, rechargeable battery table lamp that expands the Poldina Classic collection with a taller, more slender version. It is designed for illuminating desks, work surfaces, and side tables, and is perfectly suited for use in **hotels and restaurants**, as well as in domestic settings.
The aluminum structure is paired with a pleated fabric shade, creating a warm and comfortable light. The **removable magnetic LED module** can be recharged separately on the **contact charging base**, a particularly practical solution in professional environments, allowing for more efficient time management.
Equipped with **touch control**, Poldina Classic L Desk allows easy adjustment of light intensity and color temperature with a simple touch. Intended exclusively for indoor use, it is available in white, bronze, and gold finishes, integrating naturally into different contexts, from contract spaces to the home office.

LED | dimmable | IP20
