Nightbloom

Wall lamp

Environment:
Marcel Wanders in partnership with Lladró is announcing the launch of a collection of porcelain lamps that will shine wherever it is placed in a room. Nightbloom is a collection inspired by the way the petals of a flower dance lightly in the breeze. Sculpted with a sense of natural randomness, each lamp is a unique and unrepeatable creation. Each piece has a color degrade from inside out and each part in 3D relief of the branch is designed to be singularly unrepeatable. The petals are arranged in such a way that they allow the light to accentuate the details on the surface and enhance any interior with the perfect balance between light and shadow.
