### DESSINÉ PAR

Neri&Hu

### DESCRIPTION

nh continues the study on the dynamic interaction of expertise, details, materials, form, and light that Neri&Hu are developing with Artemide. The selected materials represent a perfect combination of tradition and innovation, as well as the expression of responsible and sustainable design, also conveyed by the use of a lowconsumption retrofit LED source. Like all the projects designed by Neri&Hu, nh offers a reinterpretation of the Oriental culture and tradition with a constant contemporary approach. With surprising lightness and elementary movements nh creates a landscape of elements generating – either individually or combined with each other – a non-static balanced composition characterized by elegant colour and material matching.
